EXPERIENCE

Web Development Intern, Solitaire Infosys [Mon YYYY] – [Mon YYYY]

6-month internship | [City, State]

- Developed and maintained responsive web pages and reusable UI components, improving cross-browser compatibility and page-load performance.
- Translated Figma design mockups into functional, user-friendly web interfaces following UI/UX best practices.
- Implemented front-end features with senior developers and took part in regular code reviews that reduced bug turnaround time.
- Delivered work in an Agile team setting using Git-based version control and collaborative development workflows.

PROJECTS

LearnWithSky – Full-Stack E-Learning Platform GitHub Repository

React.js (Vite), Node.js, Express.js, MongoDB, JWT | github.com/chakshu45/E-learning

- Built a full-stack learning platform where students discover, enroll in and complete courses, with course search, a video player with curriculum navigation and a personal student dashboard.
- Designed RESTful APIs in Express.js and MongoDB to manage courses, users and enrollments; secured endpoints with JWT-based authentication.
- Developed an admin/instructor console for managing course content with role-based access, and wrote database seed scripts for repeatable setup.
- Structured the React front-end into modular, reusable components with a responsive layout across mobile, tablet and desktop.
